PROFESSIONAL SUMMARY

Highly motivated Master of Computer Applications (MCA) student with a strong command of object-oriented programming (Java/C++) and software engineering principles. Passionate about solving complex algorithmic challenges, designing efficient databases, and implementing intelligent application workflows. Actively engaged with the Microsoft developer ecosystem and trained in modern AI learning paths. Seeking to leverage technical skills as a Software Engineering Intern at Microsoft.

TECHNICAL SKILLS

Languages: Java (Core OOPs), C, C++, PHP, HTML, CSS

Cloud & AI Exploration: AI-Assisted Development, Cloud Core Concepts, Prompt Engineering

Core Concepts: Data Structures & Algorithms (DSA), Relational Database Management, System Architecture, Web Technologies

Tools & IDEs: Git/GitHub, Android Studio, Kali Linux

Methodologies: Agile Development, Problem Solving, Clean Code Practices

TECHNICAL PROJECTS

Advanced Property Hub

Developed a full-stack real estate property portal utilizing Java and backend database architectures to handle dynamic listing inputs.

Optimized search filters and spatial data rendering for faster processing and seamless data storage operations.

Teachers Timetable Generator

Engineered an automated scheduling system designed to generate collision-free timetables for academic faculties.

Implemented constraint-satisfying algorithmic logic in Java to manage complex timing schedules, resource allocations, and real-time database updates.

LUXORA – Mobile Application Development

Designed and engineered backend application logic for an interactive language learning platform using Java.

Optimized data workflows to enhance memory processing efficiency and mobile application performance.

CERTIFICATIONS & TRAINING

Microsoft AI Skills Fest 2026 (Credly Verified Badge) – Microsoft Learn

Successfully completed Microsoft's official AI learning path, gaining hands-on exposure to cloud workflows, modern AI infrastructure, and prompt engineering principles.

Microsoft Azure AI Training & Certification – Microsoft Learn

Extensive study of core Cloud Concepts, Artificial Intelligence Workloads, Machine Learning workloads on Azure, and Computer Vision infrastructure.

WORK EXPERIENCE

Digital Asset Developer & Technical Coordinator

Ranibai Agnihotri Institute of Computer Science and IT | 2025 – Present

Collaborated on internal project workflows, ensuring consistent software documentation and digital infrastructure support.

Implemented automated tracking solutions for promotional campaigns, focusing on data consistency and processing efficiency.

EDUCATION

Master of Computer Applications (MCA) | Rashtrasant Tukadoji Maharaj Nagpur University | Enrolled

Bachelor of Computer Applications (BCA) | Rashtrasant Tukadoji Maharaj Nagpur University | 2022 – 2025
