

Akshay Ramesh Datarkar

Wardha, Maharashtra, India | akshaydatarkar999@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

EDUCATION

Ranibai Agnihotri Institute of Computer Science & Information Technology (RAICSIT) <i>Master of Computer Applications (MCA) — Computer Science</i> Relevant Coursework: Data Structures & Algorithms, Object-Oriented Software Engineering, Database Systems.	Wardha, India 2025 – Present
Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU) <i>Bachelor of Computer Applications (BCA)</i> Graduated	Nagpur, India 2022 – 2025

TECHNICAL SKILLS

- Programming Languages:** Java (Core & OOP), C++, SQL, HTML5, CSS3, JavaScript, PHP
- Frameworks & Libraries:** Android SDK, Tailwind CSS, RESTful APIs, JDBC
- Core CS Competencies:** Data Structures & Algorithms (DSA), System Design Fundamentals, Debugging
- Developer Tools:** Android Studio, Git, GitHub, VS Code, Google Play Console, Postman

TECHNICAL PROJECTS

Student Calc — Android Mathematical Computation App <i>Independent Software Project</i> - Architected a full-featured modular calculator supporting advanced scientific functions and precision arithmetic. - Targeted Android API Level 36, maintaining compliance with modern runtime security and performance policies. - Integrated automated build workflows via Gradle and deployed signed App Bundles (.aab) to Google Play Console. - Managed closed-testing release tracks, gathering user diagnostics and optimizing exception handling.	<i>Java, Android Studio, Gradle</i> 2026
LUXORA — Secure Digital E-Book Distribution Platform <i>Mobile Architecture Project</i> - Engineered an Android application incorporating proprietary digital rights protocols and secure viewing controls. - Implemented window security flags and background thread management to mitigate content piracy vulnerabilities. - Applied robust Object-Oriented design patterns to separate view hierarchies, local state, and asset caches.	<i>Java, Android SDK, OOP</i> 2026
Automated Continuous Simulation Engine <i>Interactive Web Architecture</i> - Developed a self-progressing endless simulation engine built with optimized DOM updates and event loops. - Implemented efficient collision detection algorithms and lightweight asset pipelines for live continuous rendering.	<i>HTML5, CSS3, JavaScript</i> 2026

CERTIFICATIONS & INDUSTRY CREDENTIALS

- | | |
|---|------|
| • Microsoft Certified: Azure AI Fundamentals (AI-900) — Microsoft / Pearson VUE | 2026 |
| • Microsoft AI Skills Fest 2026 — Verified Technical Badge, Credly | 2026 |
| • Google Gemini QuizOff 2026 — Official Technical Certificate of Participation, Unstop | 2026 |
| • Specialized Technical Learning Track — Active Weekly Learning Streak, Coursera | |

HACKATHONS & COMPETITIVE ACHIEVEMENTS

- Registered Hacker — Microsoft Agents League Hackathon:** Built agent-driven architectures on Microsoft Innovation Studio.
- Participant — INDIA RUNS National Hackathon:** Competed in scalable solution design organized by Hack2skill and Redrob AI.
- Algorithmic Problem Solving:** Actively solving Data Structures and Algorithm challenges on LeetCode.
